Art Spectrum® Colourfix™ Papers are sheets of acid-free, 300gsm hot pressed European watercolour paper, screen printed with Art Spectrum® Colourfix™ Primer. The range has 20 lightfast colours all with a fine, deep tooth. It is a superb substrate for pastels, oil colours, acrylics, inks, oil pastels, gouache, watercolours and dry media such as charcoal and pencils.

The natural, toothy surface will hold multiple layers of pastel without the need for fixative, allowing the velvet bloom and vibrant colour of pastel to be preserved. Erasing is also easy with Colourfix™ – simply lift off excess pastel with clear adhesive tape, brush off with a dry brush, or use a pencil eraser. Alternatively, errors can be overpainted or areas touched up with the matching colour of Art Spectrum Colourfix™ Primer. The tough, toothy surface can be sanded, scrubbed, soaked and reworked over and over. Colourfix™ Paper is available in 20 colours in both 23x30cm (9" x 12") and 50x70cm (20" x 28") sizes. 10 sheets per pack.

Art Spectrum® Colourfix™ Smooth is a new addition to the Colourfix™ range of papers and pastels. Manufactured by screen printing Colourfix™ Smooth Primer onto European Archival 300gsm Hot Pressed watercolour paper making 340gsm pastel paper.

The Colourfix™ Smooth texture is ideal for pastel artists who are looking for a not so toothy surface. The surface still has enough soft tooth to enable the pastel artist to do multiple layers of pastel. Colourfix™ Smooth comes in the full range of 20 colours, along with Rainbow packs in 23 x 30cm (9" x 12") and 50 x 70cm (20" x 28"), and the Cool and Warm packs in 23 x 30cm (9" x 12") size, the same as Art Spectrum® Colourfix™ Original Texture. Colourfix™ Smooth is a versatile surface that can be used for pastels, oil colours, acrylics, inks, oil pastels, gouache, watercolours and dry media such as charcoal and pencils. 10 sheets per pack.

## Art Spectrum® Colourfix™ Plein Air Board

Art Spectrum® Colourfix™ Board is a 1200gsm hot pressed watercolour board screen printed with Colourfix™ Primer. It is recommended for the artist seeking a flat, rigid work surface that still meets conservation standards. They are ideal for all mediums, including oil paint (for sketching). The full range of 20 Colourfix™ colours is offered in 'Plein Air Board', produced in a convenient size for easy framing - the printed area is 30 x 40cm (12" x 16"), and also works well in a 40 x 50cm (16" x 20") frame with a mat. Plein Air Boards are lightweight, versatile and affordable. Importantly, they are archival quality, unlike many of the panels and papers commonly used for plein air painting. Each Plein Air Board is individually wrapped in a re-sealable archival storage bag.

# Claessens Primed Linen

The Claessens family have been making and preparing the highest quality Belgium Linen since 1906. Traditional methods passed on from generation to generation are still used today to produce the world's finest artist's Linen Canvas.

Painters work with a variety of types of paint. Each type of paint requires a specific coating. An Oil Primed Canvas is intended solely for oil paint while Universal Canvases are suitable for both oil paint and acrylic paint. Both types of artist's canvas are given a specific treatment after 2 coats of glue sizing and being sanded.

Claessens Oil Primed Linen has a layer of Zinc White based primer with Linseed Oil as a binder. The canvas is put into a drying room for three days where it air-dries naturally. Once dry the canvas is sanded again and a coating layer of Titanium White primer is applied. It then goes back to the drying room for a further 10 days.

Claessens Universal Primed Linen has 2 layers of Titanium White based primer with an acrylic binder.

# Art Spectrum® Stretches & Bracing

Art Spectrum® offers the most comprehensive range of canvas textures and stretchers (miniatures to mural size). We believe it is important for artists to paint on properly prepared, quality stretched canvas. Not only is it more pleasant to paint on, but the archival characteristics are far superior to canvas panels and the like. Art Spectrum® stretchers are the basis from which painting begins.

## Art Spectrum® Heavy Duty Stretcher Bars & Bracing

For larger work, heavy duty stretchers are especially suitable for lightly or non-framed work. A wider selection is designed with double tongue to give the support normally provided by the frame. Made from carefully selected knot-free, kiln-dried pine in sizes 12" to 84". Bracing slots are provided on all sizes from 48" and above. Open-ended mortice and tenon corners make squaring up easy to achieve and maintain. Wedges included.

# Art Spectrum® Professional Quality Hoop Pine

Kiln-dried Hoop Pine. This stretcher has a more substantial profile and very large wedges adding strength and stability. Bracing slots provided on all lengths 48" and above. Double mitre, open-ended mortice and tenon. Sizes available 12" to 84". Wedges available as optional extra. Single braces are black, cross-bracing is red and green. Please note that cross-bracing must have one of each colour.
