Our aim is to produce the finest artists' colours. Ongoing research and development may mean that specifications may change without prior notice.

# Art Spectrum® Finest Artists' Oil Colour

Art Spectrum® Finest Artists' Oil Colour is Australia's most respected oil paint. Art Spectrum® is proudly Australian owned and have been manufacturing for 50 years using the highest quality lightfast pigments which are triple-milled with traditional methods using the purest of linseed oil.

The foundation of all Art Spectrum® colours is the quality of pigment. After rigorous testing for permanence, lightfastness and purity, pigments have been selected from around the world, and every batch of pigment is carefully scrutinized by our colour chemists to make sure they perform to our high standards.

Many unique and beautiful 'Australian' colours feature in the 105 oil colour range from series 1 to 5. Art Spectrum® Artist Oil Colour is available in 40ml & 150ml tubes, 300ml cartridges, 500ml tins and 1 and 4 litres tins in selected colours.

## Legend

**Lightfastness:**  
American Society for Testing and Materials (ASTM), conforming to standard D4302-90.  
**ASTM I:** Excellent Lightfastness  
**ASTM II:** Very Good Lightfastness

**Permanence:**  
\*\*\*\* excellent  
\*\*\* very good

**BWS8:** Blue Wool Scale, Maximum Lightfastness

-  Transparent Colour
-  Semi-Transparent Colour
-  Opaque Colour
-  **WARNING!**  
Do not spray apply cadmium colours. If swallowed seek medical advice. Keep out of reach of children.

# Art Spectrum® Studio Oil Colour - Art Prism

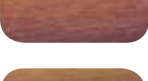

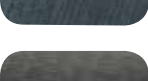

Art Spectrum® Studio Oil is a secondary range called Art Prism. Art Prism is a one series range of 26 oil colours. All colours are made to the same exacting standards and methods as our professional Art Spectrum® Finest Artists' Oil Colours. This Studio Oil range has a buttery consistency and provides a balanced palette capable of producing almost unlimited clean colour mixes. All colours are lightfast and non toxic and can be used together with Art Spectrum® Finest Artists' Oil Colours, mediums and varnishes.

- Cadmium Yellow Hue
- Cadmium Orange Hue
- Cadmium Red Hue
- Dioxazine Purple
- Cobalt Blue Hue
- Viridian Hue
- Yellow Ochre
- Burnt Sienna
- Titanium White

# Art Spectrum® Oil Mediums

Art Spectrum® Oil painting mediums are based on sound painting principles. Today's advanced testing indicates that the use of turpentine alone as a diluent for oil paints is to be avoided, as it is too easy to destroy the binder and benefits of carefully milled paint. Sound painting principles involve painting from 'lean' mixtures to 'fat' mixtures of paint – essential when paintings are completed over a period of time. This 'fat over lean' technique prevents cracking in the paint film during drying.

## ART SPECTRUM® PAINTING MEDIUM NO.1

The leanest medium. Ready to use straight from the container. Dries overnight, depending on climate and thickness of paint application. Often an excessive amount of gum turpentine is used as a substitute for a 'lean' medium. Too much gum turpentine 'denatures' the oil paint in these lean layers. This leaves an underbound pigment when the paint dries which weakens the bond between the oil paint and the canvas. Art Spectrum® Medium No. 1 contains a balanced amount of Stand Oil and turpentine for a well-balanced, permanent paint layer. Also useful to clean and lessen absorbency of pre-primed canvas panels and stretched canvasses. (Wipe on and wipe off).

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS PAINTING MEDIUM NO.1	M11	M15	M1L	M14

## ART SPECTRUM® PAINTING MEDIUM NO.2

A medium fat. It is slower drying than Art Spectrum® Medium No. 1, as it contains more oil, and used as the next fattest medium in the sequence of painting 'fat over lean'. It should be mixed with the oil paint as the layers of painting develop in the fat over lean sequence. If desired Art Spectrum® Medium No.1 may be gradually fattened by adding increasing amounts of Medium No.2. Art Spectrum® Medium No.2 has some of the properties of a glazing medium, but it is preferable to use Art Spectrum® Liquol if very thin veils of colour are desired.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS PAINTING MEDIUM NO.2	M21	M25	M21L	M24

# Art Spectrum® Oil Mediums

## ART SPECTRUM® PAINTING MEDIUM NO.3

The fattest medium. Art Spectrum® Medium No. 3 is a thicker, more slow-drying medium than Art Spectrum® Paint Medium No. 2. It is for painters who like a heavier, more viscous, medium. It is ideal for artists who paint in many layers. The artist begins with Art Spectrum® Medium No. 1, then uses Medium No. 2, then finally Medium No. 3. Art Spectrum® Medium No. 2 may also be thickened incrementally by adding Art Spectrum® Medium No. 3 in 10 percent increments.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS PAINTING MEDIUM NO.3	M31	M35	M31L	M34

## ART SPECTRUM® LIQUOL MEDIUM (FORMERLY KNOWN AS PAINT MEDIUM NO.4)

A quick-drying, transparent, painting and glazing medium. Art Spectrum® Liquol is an alkyd medium, and is extremely popular because of its versatility and fast drying properties. In most cases paint mixed with Art Spectrum® Liquol will dry in 24 hours or less. Excellent for multiple glazes, where it will give great depth and subtlety of colour. Can be painted wet on wet, or left to dry before overpainting. Mix thoroughly with oil paint on the palette before applying.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS LIQUOL	M41	M45	M41L	M44

## ART SPECTRUM® REFINED LINSEED OIL

Small amounts of Art Spectrum® Refined Linseed Oil added to oil paint will enhance flow and slow drying. This is particularly useful for 'alla prima' techniques (where the artist quickly paints wet on wet, with paint straight from the tube). Art Spectrum® Refined Linseed Oil is also used in making mediums. Art Spectrum® Refined Linseed Oil can also be used to clean brushes.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS REFINED LINSEED OIL	L1	L5	L1L	L4

## ART SPECTRUM® STAND OIL

Heat thickened linseed oil. Use with artists' oil colours to enhance flow. Dries to a tough, glossy film. Also used in the preparation of oil painting mediums. Has good leveling properties. Can give a smooth, enamel-like finish and has a resistance to yellowing and is slow drying.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS STAND OIL	S1	S5	S1L	S4

# Art Spectrum® Oil Mediums

## ART SPECTRUM® LEAN MEDIUM - REDUCED ODOUR

A very low odour alternative to the 'traditional' Art Spectrum® Medium No.1, with similar properties and applications. The difference is that Art Spectrum® Odourless Solvent is used in place of Gum Turpentine in this medium, making it ideal for those who are sensitive to the strong turpentine fumes.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS LEAN MEDIUM - REDUCED ODOUR	LM1	LM5	LM1L	LM4

## ART SPECTRUM® FAT MEDIUM - REDUCED ODOUR

As with the Art Spectrum® Reduced Odour Lean Medium, this is made with Art Spectrum® Odourless Solvent rather than the traditional Gum Turpentine. Use in conjunction with Art Spectrum® Lean Medium in the 'fat over lean' sequence. Mix paint and medium thoroughly on the palette before applying to the canvas.

DESCRIPTION	100ML	500ML
	MOQ 6	
AS FAT MEDIUM - REDUCED ODOUR	FM1	FM5

## ART SPECTRUM® WAX MEDIUM

Wax Medium is a mixture of Linseed Oil and Beeswax that is designed to thin paint down and dry to a translucent satin finish.

DESCRIPTION	150ML	500ML	1LT
AS WAX MEDIUM	WM1	WM5	WM1L

## ART SPECTRUM® GLAZING GEL

Glazing Gel is quick drying and becomes liquid when mixed into paint. It is suitable for moderate impasto and glazing techniques. Dries to a soft sheen.

DESCRIPTION	40ML	150ML	500ML
	MOQ 3		
AS GLAZING GEL	GG4	GG1	GG5

# Art Spectrum® Oil Solvents & Cleaners

## ART SPECTRUM® PURE GUM TURPENTINE

Pure Gum Turpentine is a natural, double distilled solvent for oil painting. Used in most painting mediums.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS PURE GUM TURPENTINE	GT1	GT5	GT1L	GT4

## ART SPECTRUM® ARTISTS' TURPENTINE

Artists' Turpentine is an alternative to Art Spectrum® Pure Gum Turpentine. A mix of Gum Turpentine and White Spirit. Used in the preparation of painting mediums and as a solvent for cleaning.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS ARTISTS' TURPENTINE	AT1	AT5	AT1L	AT4

## ART SPECTRUM® ODOURLESS SOLVENT

Odourless Solvent is a low odour alternative to Art Spectrum® Artists' Turpentine for people sensitive to turpentine fumes.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS ODOURLESS SOLVENT	ODS1	ODS5	ODS1L	ODS4

## ART SPECTRUM® ART CLEAN

Art Clean is a natural, biodegradable, citrus-scented cleaning solution for brushes, studio equipment and other uses. Art Spectrum® Art Clean is similar to turpentine but with a more pleasant, citrus scent. It is made from a blend of natural extracts. It contains no petroleum based solvents and no harmful bleaches. Do not use on plastics.

DESCRIPTION	500ML	1LT	4LT
AS ART CLEAN	AC5	AC1	AC4

# Art Spectrum® Oil Solvents & Cleaners

## ART SPECTRUM® CITRUS TURPENTINE

Citrus Turpentine double distilled for artists' use. This turpentine is made from orange zest and has an orange aroma. A pleasant smelling alternative to other turpentines.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS CITRUS TURPENTINE	CT1	CT5	CT1L	CT4L

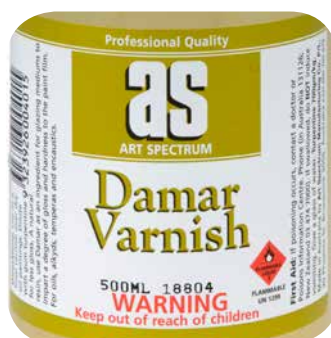

## ART SPECTRUM® BRUSH & HAND CLEANER

Brush and Hand Cleaner is non-toxic, non-abrasive and biodegradable, made with coconut oil and contains no harsh solvents. It cleans and restores old, stiff brushes.

DESCRIPTION	150ML	500ML
AS BRUSH & HAND CLEANER	HBC1	HBC5

## ART SPECTRUM® DAMAR VARNISH

A traditional gloss final varnish for oil and alkyd paintings. It is also used in making some painting mediums. Remove carefully with Gum Turpentine. Art Spectrum® Damar Resin also available.

DESCRIPTION	100ML	500ML	1LT	4LT
	MOQ 6			
AS DAMAR VARNISH	D1	D5	D1L	D4

## ART SPECTRUM® GLOSS VARNISH

A high gloss, non-yellowing acrylic varnish. Remove carefully with a small amount of methylated spirits on a lint-free cloth.

DESCRIPTION	100ML	500ML	1LT
	MOQ 6		
AS GLOSS VARNISH	PV1	PV5	PV1L

# Art Spectrum® Varnishes

## ART SPECTRUM® RETOUCH VARNISH

A temporary picture varnish. A thin coat restores luminosity to dull areas to aid colour matching. Sealer for painting grounds if the surface is too porous. Must be dry before overpainting.

DESCRIPTION	100ML	500ML	1LT
	MOQ 6		
AS RETOUCH VARNISH	RV1	RV5	RV1L

## ART SPECTRUM® MATT WAX VARNISH

A satin matt varnish made from beeswax and natural resin. Can be rubbed and buffed to a sheen with a lint-free cloth. Use Art Spectrum® Gum Turpentine as solvent.

DESCRIPTION	250ML	500ML
AS MATT WAX VARNISH	MW2	MW5

# Art Spectrum® Gesso

## ART SPECTRUM® ARTISTS' ACRYLIC GESSO

Art Spectrum® Artists' Acrylic Gesso is a brilliant White ground that provides an absorbent, permanently flexible, waterproof, non-yellowing surface. Fast drying, non-toxic and can be cleaned up with water. Suitable for canvas, wooden boards and interior masonry surfaces.

DESCRIPTION	250ML	500ML	1LT	4LT	10LT
AS ARTISTS' GESSO	GPA2	GPA5	GPA1	GPA4	GPA10

## ART SPECTRUM® STUDIO ACRYLIC GESSO

Art Spectrum® Studio Gesso (Low Cost) provides an economical alternative to Artists' Acrylic Gesso because of its reduced pigment content. Fast drying, non-toxic and can be cleaned up with water. Suitable for canvas, wooden boards and interior masonry surfaces.

DESCRIPTION	250ML	500ML	1LT	4LT	10LT
AS STUDIO GESSO (LOW COST)	GPL2	GPL5	GPL1	GPL4	GPL10

## Art Spectrum® Oil Prime

Art Spectrum® Oil Prime is a unique oil/acrylic resin blend with the Linseed Oil content allowing artists' oil colours to crosslink for natural adhesion. Fast drying, non-toxic and can be cleaned up with water. Suitable for canvas, wooden boards and interior masonry surfaces.

DESCRIPTION	500ML	1LT	4LT
AS OIL PRIME	OP5	OP	OP4

# Art Spectrum® Fillers

## Fillers

### ART SPECTRUM® CALCITE

Art Spectrum® Calcite is a fine dense white Chalk (Calcium Carbonate) used as a filler for water-based paints to increase opacity and to extend oil colours. Calcite has a lower oil absorbency rate than Whiting. It will provide extra tooth when used in the making of traditional grounds for oil painting.

DESCRIPTION	500G
AS CALCITE	CAL5

### ART SPECTRUM® KAOLIN

Art Spectrum® Kaolin is a refined clay used as an inert filler to extend oil paints.

DESCRIPTION	500G
AS KAOLIN	KA5

### ART SPECTRUM® TALC

Art Spectrum® Talc Soap stone dust used as an inert filler added to oil paint to increase opacity in transparent colours.

DESCRIPTION	500G
AS TALC	TA5

### ART SPECTRUM® WHITING

Art Spectrum® Whiting is an inert Chalk (Calcium Carbonate) used as a filler for water-based paints and to extend oil colours. It is also used in making traditional grounds for oil painting and the production of artists' soft pastels.

DESCRIPTION	500G
AS WHITING	WH5

# Art Spectrum® Waxes & Miscellaneous

## Waxes

### ART SPECTRUM® BLEACHED BEESWAX

Art Spectrum® Refined Beeswax has a high melting point that is added to oil mediums and varnishes to add body which alters brushstrokes and imparts a matt effect. Also used in encaustic painting and one of the ingredients for candle making, batik painting and timber polishes.

DESCRIPTION	250G	500G	1KG
AS BLEACHED BEESWAX	BB2	BB5	BB1

### ART SPECTRUM® PARAFFIN WAX

Art Spectrum® Paraffin Wax is a refined petroleum product that can be added to oil paint to give greater plasticity. It is also used with encaustic painting and for making candles.

DESCRIPTION	1KG
AS PARAFFIN WAX	PW1

## Miscellaneous

### ART SPECTRUM® SHELLAC FLAKES

Art Spectrum® Shellac is a resin secreted by the female lac bug. The dried Shellac flakes are dissolved in methylated spirits to make a varnish. Shellac Varnish can be used as a varnish for rigid supports, furniture and applied for water-proofing wood cuts and collagraphs. If used as a protective coating for paintings it may yellow or crack over time.

DESCRIPTION	250G	500G	1KG	10KG
AS SHELLAC FLAKES	SF2	SF5	SF1	SF10

### ART SPECTRUM® DAMAR RESIN

Art Spectrum® Damar Resin is a natural resin used in oil painting mediums to add transparency and depth to colours and as a traditional final picture varnish by dissolving in Distilled Turpentine.

DESCRIPTION	500G
AS DAMAR RESIN	DC5

### ART SPECTRUM® RABBIT SKIN GLUE

Glue sizing and oil priming are the traditional methods of preparing a canvas for oil painting. The size is made by dissolving 1 part Rabbit Skin Glue to 13 parts cold water. The size acts as a penetrating liquid to fill pores of the canvas and isolates the fabric from subsequent applications of primer and oil paint preventing canvas rot.

DESCRIPTION	500G
AS RABBIT SKIN GLUE	RSG5

# Art Spectrum® Artists' Watercolour

In accordance with proven traditional methods of production, all Art Spectrum® Artists' Watercolours are carefully stone milled to enhance the individual brilliance of each selected permanent pigment and to maximise its handling qualities. Successful watercolours depend on selecting the best quality paper, the permanence and brilliance of the pigments and the use of a wide variety of quality brushes. Available in 10ml tubes. Series 1-4.

## Legend

### Lightfastness:

American Society for Testing and Materials (ASTM), conforming to standard D4302-90.

**ASTM I:** Excellent Lightfastness

**ASTM II:** Very Good Lightfastness

### Permanence:

Indicates colours that have been tested for lightfastness in graded washes from full strength to pale dilutions, taking into account the quality of the binder and any chemical interaction between pigments and their environment.

Art Spectrum® Studio Watercolours is a secondary range called Art Prism. This offers artists a quality yet straightforward and uncomplicated range of colours at a uniformly low price. Manufactured in the classic tradition on a granite triple mill, these colours are made to the highest standards and are all artist quality. Art Prism Watercolours do not however, contain the more expensive traditional pigments. Instead, modern, lightfast, non-toxic and lower cost pigments have been chosen. Our testing has led us to believe that Art Prism colours compare very favourably with many competitive 'Professional Artist Quality' brands. The range of thirty colours provides a balanced palette capable of producing almost unlimited clean colour mixes. Art Prism Watercolours are completely compatible with Art Spectrum® Professional Quality Watercolours, and it is an easy progression to expand into the full range of beautiful traditional colours. Available in 10ml tubes.

## Legend

### Lightfastness:

American Society for Testing and Materials (ASTM), conforming to standard D4302-90.

# Art Spectrum® Artists' Gouache

Gouache is a non-toxic, resoluble, quick-drying, water based colour of excellent opacity with a consistent, velvety finish that can be applied to create opaque fields of colour or used to create delicate washes like watercolours.

Art Spectrum® Gouache is lightfast with an extremely high level of pigment loading providing excellent covering power and clean mixing abilities.

All our colours are made in accordance with the classical tradition. To begin with, this means that we use the best available pigments and binders. Each colour is individually formulated in order to produce a paint that takes advantage of the unique qualities of each individual pigment. Each colour is then carefully triple-milled to maximise the pigments brilliance.

## Legend

### Blue Wool Scale:

Blue Wool Scale ratings of 6, 7, & 8 are considered permanent for artistic purposes.

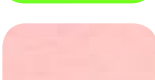

### WARNING!

Do not spray apply Cadmium colours. If swallowed seek medical advice. Keep out of reach of children

# Art Spectrum® Pigmented Inks

Art Spectrum® Pigmented Inks are fast drying, lightfast ASTM 1 & 2, water-resistant, non-toxic, intense colours with a smooth even flow that can be used as transparent washes, layered tints or bold fields of strong colour. Because they are pigmented they do not fade like traditional dye based inks and will intermix cleanly.

Use with brushes, drawing and calligraphy pens and airbrushes on most clean, non greasy surfaces such as paper, board, wood and primed canvas. Ideal for multi-media artwork.

# Art Spectrum® Liquid Spectrum Inks

Art Spectrum® Liquid Spectrum Inks are brilliant, water-resistant, non-toxic, lightfast ASTM 1 & 2 colours that have twice the pigment concentration of standard ink ranges. The colour strength allows them to be diluted to Watercolour like washes or used undiluted to make bold, vibrant artworks. When intermixed and used in conjunction with Liquid Spectrum Metallics this range creates an unlimited vibrant palette for the artist. Blue Wool Scale ratings of 6,7,& 8 are considered permanent for artistic purposes.

# Art Spectrum® Extra Soft Square Pastel Sets

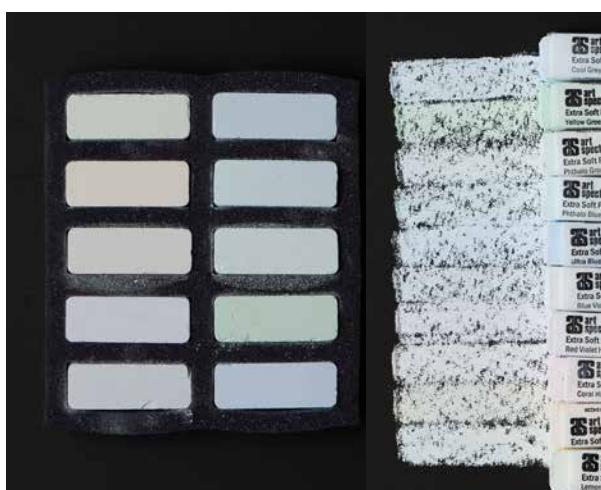

Discover the collection of ART SPECTRUM® EXTRA SOFT SQUARE PASTELS. With over 50 years experience of making professional artists' colours, we are proud to introduce a selection of pure pigment extra soft square pastels. Colours ranging from smouldering darks to delicate veils of highlight colours, all exhibiting the rich velvety bloom loved by pastel artists. Experience soft creamy pastels that lay down smoothly and blend beautifully onto paper. The shape allows broad strokes for easy coverage and strong gestural marks and the ability to create fine detailed work.

Feel confident that you are using professional artists' materials made from the highest quality lightfast pigments which are triple-milled to bring out the intensity of each colour.

Innovation drives us at Art Spectrum®. We will continue to expand our Extra Soft Square Pastel range to include new and exciting colours for the artist.

# Art Spectrum® Soft Pastels

Art Spectrum® Soft Pastels are hand made using the finest lightfast pigments with maximum pigment concentration and minimum binding agent, triple milled to bring out the finest colour and provide the rich, velvety bloom valued by the pastel artist.

Art Spectrum® Soft Pastels range from subtle and delicate tints to brilliant and intense pure colours through to smouldering darks. All Art Spectrum® pure pigment pastels are free from heavy metals, asbestos or other toxic substances. Pastels are 70x12mm.

# Art Spectrum® Soft Pastels Sets

Trays of Art Spectrum Pastels present colours in many combinations for easy selection and use by the pastellist. Sets available include 'Seascape', 'Landscape', 'Portrait' and 'Flowers', as well as our range of smouldering 'Darks' and vibrant 'Assorted' colours. Sets of 60's Assorted and 120's Assorted (in timber boxes) provide the artist with very subtle and vibrant colour combinations. The Half Stick Pastel Sets (20's and 40's) as well as sets of 30 or 60 pastels, all have foam liners to protect each pastel stick from damage as well as limiting dust during use. Used pastels and segments store easily in the foam liners.

# Art Spectrum® Colourfix™ Pastels

Art Spectrum® Colourfix™ Pastels have been carefully made to closely match the colours of Art Spectrum® Colourfix™ Papers, Boards and Primers. The pastels are very soft, enabling them to go easily over existing layers of pastel. Like all Art Spectrum® products they are made with the most light-fast, non-toxic pigments available. Available as standard size individual colours.

# Art Spectrum® Colourfix™ Original Primer

Art Spectrum Colourfix™ Primer is a fine tooth, quick drying acrylic primer which bonds aggressively to practically any clean, dry surface - all types of papers (300 gsm or heavier recommended), canvas, card, ply, plastic, glass, timber, ceramic and metal. Art Spectrum Colourfix™ Primer can be applied with brushes, sponges, rollers etc. straight from the pot. 20 colours are available, including Clear\*. All colours can be intermixed, or tinted with Art Spectrum Inks or Gouache, to create new shades. The Clear Colourfix™ Primer allows the natural surface or underlying colours to remain visible, whilst providing extra tooth for more overlays. Use Clear and other Art Spectrum Colourfix™ Primers for mixed media techniques and experimental art and craft works. It can even be used as an adhesive for collage. All colours are available in 250ml pots. Black, White and Clear are also available in 1 litre tubs. \*Supertooth Primer is also available, in Clear only.

WHITE	PWH2	PWH1

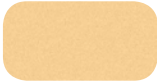

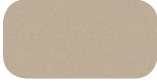

# Art Spectrum® Colourfix™ Smooth Primer

Art Spectrum® Colourfix™ Smooth is a new addition to the Colourfix™ Primer range. It is ideal for pastel artists who are looking for a not so toothy surface. The surface still has enough soft tooth to enable the pastel artist to do multiple layers of pastel without the need for fixative.

Colourfix™ Smooth is a versatile primer that can be used for all mediums, including multi media, acrylics, inks, oils, gouache and watercolours.

DESCRIPTION	250ML	1LT
