

Art Spectrum® Pigmented Inks

Art Spectrum® Pigmented Inks are fast drying, lightfast, water-resistant, non-toxic, intense colours with a smooth even flow that can be used as transparent washes, layered tints or bold fields of strong colour.

Art Spectrum® Pigmented Ink range includes transparent and opaque colours.

As they are a pigmented ink, they will not fade like traditional dye based inks and will intermix cleanly.

Use with brushes, drawing and calligraphy pens and airbrushes on most clean, non greasy surfaces such as paper, board, wood and primed canvas. Ideal for multi-media artwork.
