

Art Spectrum® Gouache is a non-toxic, resoluble, quick-drying, water-based colour of excellent opacity with a consistent, velvety finish that can be applied to create opaque fields of colour or used to create delicate washes like watercolours.

Art Spectrum® Gouache is lightfast with an extremely high level of pigment loading providing excellent covering power and clean mixing abilities. All our colours are made in accordance with the classical tradition. We use superior quality pigments and binders. Each colour is then carefully triple-milled to maximise the pigments brilliance.

Goache Colours	Pigments	Lightfastness
Primrose Yellow	PY3	BWS 8
Yellow	PY1, PW6	BWS 8
Primary Yellow	PY1, PW6	BWS 7
Cadmium Yellow (Series 4)	PY35	BWS 7
